## SKILLS

---

### Web Development and Design Proficiency:

HTML	●	●	●	●	●	●	●	●	●
CSS	●	●	●	●	●	●	●	●	●
Bootstrap	●	●	●	●	●	●	●	●	●
JavaScript	●	●	●	●	●	●	●	●	●
jQuery	●	●	●	●	●	●	●	●	●
Angular.JS	●	●	●	●	●	●	●	●	●
React.JS	●	●	●	●	●	●	●	●	●
Python	●	●	●	●	●	●	●	●	●
Ruby (on Rails)	●	●	●	●	●	●	●	●	●
Adobe Photoshop	●	●	●	●	●	●	●	●	●

## EXPERIENCE

---

**Web Developer and Designer** – Cornfed Web Designs 2016 | Dallas, TX & New York, NY

- Work in every step of the client acquisition, design, and development processes
- Implement designs and develop elements that work with WordPress
- Create mobile responsive websites

**Press Operator** – Deluxe Corporation 2015 - 2016 | Maryville, MO

- Prioritize and schedule projects to efficiently complete work within a given deadline

**Machine Operator** – Kawasaki Motor(through Focus Workforce) 2014 - 2015 | Maryville, MO

- First Focus *Employee of the Month*

**Shift Manager** – Burger King 2012 - 2014 | Maryville, MO

- Coordinate work flow to maximize productivity and minimize extraneous costs

**Sales Representative** – Vector Marketing Corporation 2011 | Saint Joseph, MO

- Create training seminars, materials, and video presentations for new employees

## EDUCATION

---

**Computer Science** - Northwest Missouri State University 2011 – 2013 | Maryville, MO

- Coursework developing software, working out data structures, and debugging code
- *Programming Challenges* – Develop novel solutions to potentially difficult programming situations and exercise lateral thinking skills

**Web Development Bootcamps and Courses:** 2016 | New York, NY

- freeCodeCamp – Front-End Development Certification (400 hours)
- Undertaking several others to further advance my knowledge and skill-sets

## RELATED EXPERIENCE

---

- **Tutor** programming concepts ranging from data and file structures to jQuery functions and implementation
- **Personal projects** involved technologies: Angular.JS, React.JS, Ruby on Rails, and Python and Node.JS (see next page)
- **Freelance** web design and development. Some pro bono work for non-profits and individuals
- **Pair Programming** to strengthen my skills working as a team and communicating thoroughly to overcome obstacles.

# PHILLIP FLANAGAN

## PROJECTS

---

These projects and their respective source codes are available to view on my website:

[philunfiltered.com](http://philunfiltered.com)

### **The Quote Today Is** – Personal Project

- A *Node.js* bot that posts multiple times a day to twitter. Built entirely with JavaScript. Version control using Git. Deployed to Heroku
- Other tools include: Unirest, Twitter API, npm, Photoshop, EncloseJS, Atom Editor

### **My Recipe Stash** – Personal Project

- A *React.js* application for storing ingredients to a recipe. Utilizes localStorage. Written with HTML5, CSS3, JavaScript (ES6), React.js, and bootstrap. Able to go through the basic CRUD operations with an aesthetic UX layer.
- Other tools include: CodePen.io, Babel, SASS

### **Logo Revamp** – Liberation Prison Yoga

- *Pro Bono graphic design* for a non-profit organization. Engaged with client through several iterations of a design. Completed final design based on a client's rough sketch.
- Other tools include: Adobe Illustrator

### **Tutorial Website** – Personal Project

- An *Angular.js* (v1.x) application that allows users to select tutorials with a UX friendly Angular implementation.
- Other tools include: Sublime Editor, HTML, CSS, Bootstrap

### **Milty's Paintball** – Alex Milton

- *Revamp Website* to implement bootstrap. Use jQuery to improve maintainability of elements. Used some elements of CSS3 to enhance the overall UI.

### **Micro Blog** – Personal Project (Work in Progress)

- A *Ruby on Rails* website for posting small blog snippets and form validation for article posting.
- Other tools include: Cloud 9 IDE, Bootstrap, Photoshop

### **22Upload** – Personal Project

- A *Python* application that allows you to upload images from your computer to a variety of websites. Currently, I have implemented Imgur's API. Later implementations will include more websites as well as a GUI interface developed with PyQt. Version control with Git.
